

FLAIROSOL®

**MISTIFYING  
SOLUTIONS**

## MISTIFY YOUR WORLD

### Get ready to experience Flairosol

A unique marriage of aerosol-spray quality and non-pressurised trigger sprayer convenience.

All combined in one elegant package.

Flairosol will make your product stand out from point of purchase, all the way to your customer's hands.

### Best experience

Flairosol's superior ergonomics make it delightful to use, and its spray performance is truly remarkable.

## Good-bye regulations

Flairosol bridges the gap between trigger and aerosol. Its powerful, high quality spray is a true alternative for anyone wanting to avoid aerosol's regulatory headaches.

## Hello environment

Simplify your supply chain and free yourself from propellant gases, volatile organic compounds and pressurised containers.

- Misty**  
Misty-like spray adheres evenly and perfectly to all kind of surfaces.
- Powerful**  
Liquid is expelled with aplomb thanks to pre-compression technology.
- Continuous spraying**  
Large areas are covered quickly and easily, without gaps.

Flairosol's beauty runs more than skin deep. The bag-in-bottle system inside its plastic container is one essential component.

- Upside-down**  
The bag-in-bottle allows 360° spraying for those difficult to reach areas.
- Airless**  
Total air isolation means no contamination and better product compounds.
- Every last drop**  
No wastage with close to 99% liquid evacuation.

Don't be deceived by its smooth curves. Flairosol packs a punch when it comes to dispensing.

# Try Flairosol – it will win you over

- Fill Flairosol with water.
- Spray and observe the fine mist.
- For an even finer mist, add a drop or two of liquid soap in the bottle and shake well.
- Press rapidly and repeatedly – admire the continuous jet.
- Turn upside down and press. It still works.
- Hold in one hand – picture your logo on the bottle.

Enjoyed Flairosol?
